Lucknow, Uttar Pradesh, India

I work with Moodle and IOMAD, and have done since 2016. That began at Apeejay Education Society coordinating e-courses, went independent in 2019, and became Hooknot Digital in 2021.

The work is platform work: installs, upgrades, migrations, multi-tenant builds, custom plugins, and the reporting core Moodle does not give you. Some of it is rescue work on sites that have stopped behaving. Alongside the technical side I run training sessions for teachers, learners and administrators, online and in person.

Clients deal with me directly. There is no account manager in between, which is the point of keeping the studio small. Smaller, self-contained jobs also come through Fiverr, where I have completed 600 orders and more than 350 of those buyers left a public review.

EXPERIENCE

Founder, Hooknot Digital (Self-employed)

January 2021 to Present
Lucknow, Uttar Pradesh, remote

- Moodle and IOMAD setup, upgrades and migrations, including MoodleCloud to self-hosted.
- Multi-tenant LMS builds for organisations running separate company portals on one platform.
- Custom Moodle plugin development, and custom SQL reporting and analytics where the built-in reports cannot answer the question.
- Moodle and WordPress integration with single sign-on.
- AI integration with Moodle.
- Platform rescue, security and performance work.
- Training sessions for teachers, learners and administrators, delivered online and in person.
- Transport Management Systems built on the same approach: one live in production for BKTC and Swift Logistics in Bareilly, a second in development for Absuma.

Freelance Moodle Administrator, Developer and Consultant, Self-employed

April 2019 to December 2020
Lucknow, Uttar Pradesh, remote

- Moodle administration, development and consulting for schools, colleges, institutes and training organisations.
- This is the work that became Hooknot Digital when the studio was formed in 2021.

E-Course Coordinator, Apeejay Education Society (Full-time)

May 2016 to April 2019
Delhi

- Coordinated e-course delivery on Moodle. This is where the Moodle work started.

Drupal Developer, Indev Consultancy Pvt. Ltd. (Full-time)

September 2015 to May 2016
Delhi

- Built and maintained websites in Drupal.
